Best Practice-II

1. Title of the Practice

Learner-Centric Pedagogy is integrated for the achievement of graduate attributes.

2. Objectives of the Practice

1. Develop a learning environment that is centered around the learner.
2. To train the members of faculty on pedagogical teaching and learning.
3. Development of knowledge and process skills through course-based projects.
4. To impart the importance of using ICT tools in teaching.
5. To educate the faculty on new innovations and practices of teaching through ITW.
6. Each student must achieve Graduate Attributes.
7. To promote outcome-based education in teaching and learning.

3. The Context

JBREC is able to meet the needs of such diversity by combining several pedagogical - learner-centric methods.

4. The Practice

At all levels, employees are influenced and imbibed with "The Seven Habits of Highly Successful People." In this way, intrinsic motivation is encouraged.

1. Using Learning by Doing and Think-Pair-Share in addition to Process-Oriented Guided Inquiry Learning can lead to a more cooperative learning experience.
2. To enhance the LSRW skills (Listening, Speaking, Reading and Writing). These training sessions are conducted with an objective to improve the comprehension skills of faculties. Two trainers are provided for each batch to ensure that every faculty gets the attention needed thus making sure that there is maximum participation. Faculties are given team tasks and activities thus encouraging participative learning.
3. A platform for modelling and developing projects is provided by "Course-Based Projects".

4. Teacher and student establish goals using "Career Vision Approach".
5. Learning can also take place outside of conventional classrooms with blended learning and ICT.

5. Evidence of Success

1. The outcome of this practice is connected beyond curriculum development, faculty development programs, developing better teaching practices, building industry partners for internship, having industry expert ecosystem with strong backup from management of engineering colleges. This consistent ecosystem should provide new thoughts and latest happenings in a motivating and thought-provoking manner.
2. Methodologies of ICT education is being adapted.
3. JBREC adapted Outcome-Based Education to enhance the student's performance.
4. Bringing the team spirit, social responsibility and learning ability to a higher level is the purpose of the interactive learning.
5. With the combined effort and commitment of the institution and faculties, the institution has achieved very good response. This has led to the increase in the quality of Teaching.

6. Problems Encountered and Resources Required

The classroom deliverables can be challenging since learning styles and retention varies across student fraternities.

ICT TOOL FOR THE A.Y.2019-2020

Teachers use ICT enabled tools for effective teaching-learning process.

The institute facilitates the role of technology in teaching-learning. So, the faculty members are using ICT tools to create interest among students for improving their learning experience. The use of multimedia teaching aids like, LCD projectors, classrooms with internet enabled computers/laptops are generally used in classroom. College has electronic resource packages like ERP, e- Class room, SWAYAM NPTEL, SPOKEN TUTORIAL, Institutional membership for GDLC –Galileo Integrated Digital Learning Centre, DELNET – Developing Library Network, NDL – National Digital Library which can be accessed by all the students. The faculty members effectively utilize Audio Visual aids to demonstrate the concepts to the students to enhance the learning experience. External Hard disk of 1 TB containing web and video courses (offline) from NPTEL are accessible to faculty and students from the server installed in the library. Lecture Notes and Study materials are shared digitally through student Whatsapp groups. Due to pandemic faculty are taking classes online using different platforms like ZOOM, SKYPE, GOOGLE MEET, CISCO WEBEX etc.

Some of the tools used by the faculty members are

- Google Classroom - LMS
- Moodle Cloud - LMS
- Kahoot - Assessment Tool
- Virtual Labs - Tool to conduct labs through simulations.
- Spoken Tutorial - Course certification

A nine days Intensive Teaching Workshop (ITW) was successfully conducted in Joginpally B.R Engineering College, from 10.06.2020 to 20-06.2020. The ITW was attended by 18 participants from faculty members of ECE, EEE, CSE, IT, MBA, MECH., LAW and JBRPC. It was planned to have a total number of 18 participants. All department HoDs selected and nominated faculty members from their department who needed immediate attention to teaching skill improvement.

A total of 18 participants were finally selected. 16 faculty members from JBREC, 1 faculty from JBRPC and 1 faculty from BLC participated in ITW (1&2), 10 - 20 June 2020. Each selected participant has to deliver **FIVE** lectures, each of 30 minutes duration including 10 minutes for Question/Answer session. Out of the FIVE sessions given to participants, two '**Chalk and Talk**' lectures, one '**Power Point Presentation**', one **LAB session** and one **ONLINE Class**. **Major General Dr. S. S. Dasaka**, SM, VSM (Retd.), CEO, JB Group of Educational Institutions and **Dr.V.Usha Shree**, Principal JBREC inaugurated the workshop. For every lecture of participants, all three evaluators documented their evaluations. After each lecture, the participants were immediately given the feedback about their lecture indicating the strength and weakness observed by the evaluators which is noted by the participants for future improvement in their teaching skills.

The demonstration lectures were given by the senior faculty members to expose the participants to effective teaching techniques. On the concluding day of ITW (1&2), all 18 participants unanimously agreed that the workshop was highly beneficial and many became aware of their shortcomings as a teacher. All participants agreed that the workshop was very informative, great learning, definitely helped them and provided direction in becoming better teachers. Participants felt that they would overcome their shortcomings and fortify their strengths.
